Aim:

Create Javascript Object of Spoural Registration User input and Display the Object Details on Webpage(Table)

Create Car Object and Its methods like isFuelType(CNG, Petrol, Diesel, Hybrid), isType(like SUV, Hatchback,Luxury), isBrand(like BMW, Audi, Tata, Mahindra)

Demonstrate: this keyword in constructor, method etc.

       document.getElementById("tab").innerHTML = null;
   }
   for (let i in info) {
       document.getElementById("tab").innerHTML +=
 ${i}${info[i]}<\tr>`;
   }
   cnt++;
```

Output:

Conclusion:

In this practical I came to know about the concept of onclick() event listener and it's working. I have also implemented the onclick() method on bike,car and on iphone and I have displayed it through the table.
